## INTRODUCTORY.

1898.

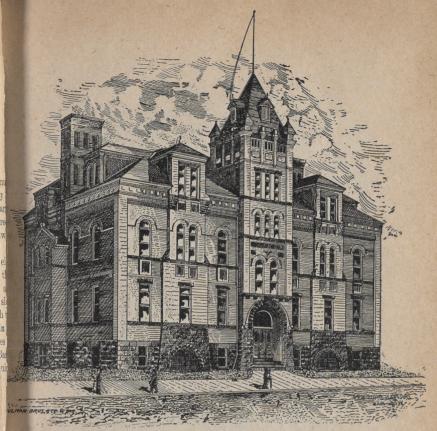

The Publishers have much pleasure in submitting herewith the and edition of their Manitoba and Northwest Gazetteer and Directory, and City Winnipeg Directory. The book this year, as in former years, is divided into six par First, A complete Alphabetical Directory of Winnipeg; Secondly, A Street Directory of Winnipeg; Thirdly, A Classfied Directory of Manitoba, the Northw Territories and Winnipeg.

The preparation of Directories, perhaps, as vividly as anything elimpresses the compiler with a sense of the progress of the country in all constitutes material prosperity. The annual changes in the Cities, Towns a Villages show a marked increase this year. Last year we attributed the sprogress and general grumbling in the country to the low price of wheat. With rise in price of Manitoba's staple of production, a great change has been felt in branches of trade in Manitoba and the Northwest Territories. The tabes statistics on the following pages shows the progress made in Agriculture. The lains and Postal Returns show Winnipeg well up as the third city of the Domini

#### POPULATION.

The Population has made a very satisfactory increase this year. There is some difference between the City's Assessment Commissioner's Estimate and ours, but when, it is taken into consideraton, that the Directory's Estimate is one year later, it will be found that our figures are about the same. The thoroughness and perfect system, characteristic of the methods of Directory Publishers, being bound by no law or statute as to who should be counted, the fact that they are here is all that we want to know. Where they came from or how long they intend to remain is not considered. Our Hotels, Colleges and Boarding Houses, contain a large number that are not counted by the Dominion Census,

The following Table gives our estimate of the population of the City of Winnipeg for the past twenty-three years:

All of the information given in this Directory, has been compiled in the most systematic and reliable manner. Every house in the city, has been visited by experienced directory canvassers, who have diligently plied their questions, for the names of all the members of the family, for relatives, lodgers and boarders, and for persons who may reside upstairs or down, or in the rear, or for others, who, though absent, may make their homes about the premises. This canvass of the residences, however, was not sufficient for directory purposes, and every office, tore, factory and business block was visited, and the payrolls and lists of employes were copied. Thus, the publishers secure in duplicate, all the names taken at the residences, and, besides, all the names of persons who are lodgers and boarders in places where their names are unknown or where they may have been forgotten, also the names of those who sleep in offices or rooms in business blocks, stores and factories. By this duplicate system of canvassing names, omissions and errors are reduced to a minimum.
